YELLOW HIGHLIGHTS DENOTE NEW/CHANGED INFORMATION

**General Situation/Overview:**

On January 21, 2020, the Centers for Disease Control and Prevention (CDC) and Washington State Department of Health announced the first case of 2019 Novel Coronavirus (COVID-19) in the United States and in Washington State. As of 3/19/2020 a 24, 48, 72-hour planning projection of the response is being done daily. Friday’s planning projection will encompass Saturday and Sunday, then resume normal planning projections on Monday.

**HEALTHY WASHINGTON ROADMAP TO RECOVERY**

- Healthy Washington Roadmap to Recovery – On May 13<sup>th</sup> Governor Inslee announced that all counties will move to Phase 3 effective May 18<sup>th</sup> – June 30. The state will fully re-open on June 30 or before if we can reach a 70% vaccination rate across the state. One caveat to these re-opening plans is if the ICU capacity reaches 90% restrictions may need to be put back in place. <https://www.governor.wa.gov/news-media/inslee-announces-statewide-reopening-date-june-30-and-short-term-statewide-move-phase%2%A03>
- Governor Inslee also announced on May 13<sup>th</sup> that Washington would follow the CDC guidelines for masking guidance for fully vaccinated people. Meaning people who are two weeks past their second Pfizer or Moderna shot or one-shot J&J will not be required to wear a mask in most settings. There are exclusions to the mask guidance – like for medical, public transportation, schools, etc. and businesses retain the right to require customers to wear masks.
