YELLOW HIGHLIGHTS DENOTE NEW/CHANGED INFORMATION

General Situation/Overview:

On January 21, 2020, the Centers for Disease Control and Prevention (CDC) and Washington State Department of Health announced the first case of 2019 Novel Coronavirus (COVID-19) in the United States and in Washington State. As of 3/19/2020 a 24, 48, 72-hour planning projection of the response is being done daily. Friday’s planning projection will encompass Saturday and Sunday, then resume normal planning projections on Monday.

HEALTHY WASHINGTON ROADMAP TO RECOVERY

- Healthy Washington Roadmap to Recovery – On May 13th Governor Inslee announced that all counties will move to Phase 3 effective May 18th– June 30. The state will have a full economic re-opening on June 30 or before if we can reach a 70% vaccination rate across the state. The June 30th date does not mark the end of the Pandemic Emergency. One caveat to the Governor’s economic re-opening plans is if the ICU capacity reaches 90% restrictions may need to be put back in place. <https://www.governor.wa.gov/news-media/inslee-announces-statewide-reopening-date-june-30-and-short-term-statewide-move-phase%2%A03>
- Governor Inslee also announced on May 13th that Washington would follow the CDC guidelines for masking guidance for fully vaccinated people. Meaning people who are two weeks past their second Pfizer or Moderna shot or one-shot J&J will not be required to wear a mask in most settings. There are exclusions to the mask guidance – like for medical, public transportation, schools, etc. and businesses retain the right to require customers to wear masks.
