

BFHD COVID-19 Flowchart for Schools

Definitions

Close Contact

In general, a close contact is anyone within 6ft of a person with COVID-19 for 15 cumulative minutes or more over a 24 hr period during the time when the person with COVID-19 was infectious (2 days prior to symptom onset or test collection date and 10 days after). Close contacts who have tested positive within the previous 90 days are excluded from quarantine. *In a K-12 classroom, students who are at least 3ft away from an infected student when both students were wearing masks/face coverings are not considered close contacts.*

Isolation

Applies to sick or symptomatic individuals

Quarantine

Applies to those who may have been exposed to COVID-19

Fully Vaccinated

A person is fully vaccinated when they have had two doses of the Moderna or Pfizer or one dose of Johnson & Johnson, and at least two weeks have passed since the last dose.

Test to Stay

Students may complete a modified quarantine and continue in-person learning if:

- The school has implemented a Test to Stay protocol with approval from BFHD
- They test negative twice during the 7-day period after exposure (on the first day attending school and day 5 after exposure)
- They do not participate in extracurricular activities, sports, or community events for the 7-day period
- They do not have symptoms
- They continue to wear a mask

COVID-19 Symptoms (not related to another condition)

Fever

Shortness of breath or difficulty breathing

Muscle or body aches

New loss of taste or smell

Cough (new, changed, or worsening)

Congestion or runny nose

Nausea, vomiting, or diarrhea

Headache

Fatigue

Sore throat
